February 24-25, 2018
UC Davis Veterinary Medicine

[*receive up to 15 CE credits*](#)

Join us for the [Wildlife and Exotic Animal Symposium](#) on February 24-25, 2018 at UC Davis. There are many interactive lectures this year including a track dedicated to registered veterinary technicians.

[Register Online](#)

Our keynote speakers for the exotics tracks include **Dr. Christopher Mans** from the University of Wisconsin School of Veterinary Medicine and Dr. Jill Heatley from Texas A&M College of Veterinary Medicine.

Topics include:

- Sedation in birds, reptiles and small mammals
- Anesthesia and pain management for chinchillas
- Tortoise and turtle radiography
- Avian diagnostic testing-beyond the CBC and chemistry panel

Our keynote wildlife track speaker is **Dr. Brian Stacy** from the University of Florida College of Veterinary Medicine. Dr. Stacy Serves as the veterinarian for the National Sea Turtle Program under NOAA, NMFS, and Office of Protected Resources.

Dr. Stacy will be hold a panel discussion focused on careers in wildlife medicine.

Our plenary speaker is **Dr. Ashley Zehnder** from Stanford University who will provide a comparative point of view on cancer in wildlife and exotic animals.

Many other exciting lectures from UC Davis faculty and other speakers from around the country will be offering state of the art lectures for a weekend dedicated to wildlife, exotic, and zoo medicine.
