Wildlife Extension Veterinarian
Cervidae Health and Ecology

The University of Florida (UF), Institute of Food and Agricultural Sciences (IFAS) is seeking to hire an Assistant Professor with a dual appointment in the College of Veterinary Medicine (CVM) Dept. of Small Animal Clinical Sciences (which houses zoo medicine) and the Institute of Food Agricultural Sciences (IFAS) Dept. of Wildlife Ecology and Conservation. The position is a 12-month, tenure-track with a 60% research and 40% extension appointment. The successful applicant will be expected to establish a nationally and internationally-recognized research program in ungulate health and ecology as well as an extension program working with deer farm owners to promote captive cervid health. The individual will be a key member of the UF Cervidae Health Research Initiative (CHeRI), which is an interdisciplinary team of ecologists, entomologists, virologists, geographers, veterinarians, and diagnosticians working to promote healthy cervids and healthy ecosystems in Florida.

Applicants must have a DVM (or equivalent degree) and an M.S. (or equivalent research experience) in the biological sciences. Preference will be given to veterinarians boarded in Zoo Medicine. A Ph.D. in the ecological sciences or epidemiology and experience with captive ungulates are preferred. UF is a land-grant university committed to providing scientific knowledge and expertise to Floridians. UF has excellent research facilities and programs on the main campus and throughout the state with large and productive programs in veterinary medicine, emerging pathogens, One Health, infectious diseases, immunology, biodiversity, and wildlife ecology. Salary will be determined based on qualifications and experience. Applicants must apply through the Gator Jobs website at http://jobs.ufl.edu. Refer to requisition #495625.
