

### **Wildlife Capture & Chemical Immobilization (Online) Course with Dr. Terry Kreeger**

This course is for students and professionals interested in learning about all aspects of capture and immobilizing wild animals using a variety of drugs.

Dates: February 6 – March 1, 2023

Register here: <https://www.centerforwildlifestudies.org/courses/capture-immobilization-online-mar-2023>

### **Wildlife Capture & Chemical Immobilization (Field) Course with Dr. Terry Kreeger**

This immersive 4-day field course is designed to provide students a one-of-a-kind, hands-on learning experience handling wolves, bears, cougars, and other wildlife at the Wildlife Science Center in Stacy, MN.

Dates: March 6-9, 2023

Register here: <https://www.centerforwildlifestudies.org/courses/capture-immobilization-field-march-2023>

### **Working and Partnering with Conservation Canines – Hybrid Courses**

Scent detection dogs are increasingly used in conservation research to improve the frequency or probability of finding biological samples or focal organisms, including rare or cryptic species.

We offer a series of three short courses (Course #1-2 online; & Course #3 field) designed to provide an appreciation for this emerging field and the science behind it, while presenting real-world examples, logistics, and considerations underscoring the potential benefits of this approach

Dates: Course #1 Jan 2-16, 2023; Course #2 Mar 6-20, 2023; & Course #3 Summer, 2023

Register here: <https://www.centerforwildlifestudies.org/courses/conservationcanines-online-field-2023>

### **Sea Turtle Ecology and Conservation (Online & Field)**

Sea turtles are a charismatic and ecologically important, yet imperiled, group of marine reptiles. This course introduces students to these fascinating and complex animals through lectures and class discussions. Following the online portion, students can join the instructor in the field where students will practice nesting protocols and techniques at a key nesting beach in the Yucatan Peninsula.

Dates: Online – June 5 – July 2, 2023 & Field – July 9-14, 2023
