

The Clinic for Zoo Animals, Exotic Pets and Wildlife seeks as of September 2022 or as agreed an

Senior veterinarian (Oberarzt/Leitender Assistent 80 - 100%)

The position includes organisation and participation of the clinical exotic pet medicine service and, based upon qualifications, clinical service for the animal collection at Zurich Zoo and the Wildlife Park Zurich, and active participation in research and teaching.

The position may serve as a stepping stone and networking opportunity for further development in the field of exotic pet medicine, depending on individual career path and career aspirations, or may be developed with a view to an academic career.

Good leadership qualities and a flair for organisation are expected. College Certificate (ACZM or ECZM) or a comparable certificate are an advantage as well as documentation in practical experience in the specialisation of exotic pets, zoo animals and wildlife medicine. Ability to communicate fluently in German is essential.
