

CONSERVATION MEDICINE & CONSERVATION BIOLOGY

SUMMER 2022 STUDY ABROAD COURSE IN COSTA RICA

UNIVERSITY OF GEORGIA

Learn & Practice the principles of conservation medicine and biology using the ecology and fauna of Costa Rica, a country with rich biodiversity, a long history of conservation research and many wildlife professionals!

Perfect course for students in wildlife management, ecology, biology, animal sciences, pre-vet, vet med, and related studies. We work in 4-5 ecosystems and explore relevant conservation issues.

Course open to
Undergrad, Grad & Veterinary students

Dates: June 5-July 2nd, 2022

6 credit hours

Approximate program cost: \$3,200
(does not include airfare or tuition)
