Wildlife and Exotic Animal Symposium 2020

March 7-8, 2020 | UC Davis

The 35th Annual Wildlife and Exotic Animal Symposium features a diverse range of topics on species such as birds, amphibians, and reptiles as well as wildlife including elephants, sea turtles and otters.

The symposium features guest speakers providing cutting edge information on both exotics and wildlife medicine, including:

- Shane Boylan, DVM, South Carolina Aquarium
- Julie Cavin, DVM, Gulf World Marine Park
- Kirsten Gilardi DVM, DACZM, School of Veterinary Medicine, UC Davis
- Lauren Howard, DVM, DACZM, San Diego Zoo Safari Park
- Larry Nemetz, DVM, The Bird Clinic
- Kurt Sladky, MS, DVM, DACZM, DECZM (Herpetology and Zoo Health Management), School of Veterinary Medicine, University of Wisconsin
- Danielle Tarbert, DVM, School of Veterinary Medicine, UC Davis
- Stephen White, DVM, DACVD, School of Veterinary Medicine, UC Davis

In collaboration with:
UC Davis Avian Exotic Medicine Club (AEMC)
UC Davis Wildlife and Aquatic Animal Medicine (WAAM) Club

Symposium highlights:
- Ball Python Nidovirus
- Bighorn Sheep Pneumonia Complex
- Captive Cetacean & Pinniped Ophthalmology
- Elephant Herpes Virus
- Radiography of the Respiratory System in Birds
- Reptile Pain Management
- Rodent Dermatology
- Sloths as Sentinels for Environmental Health
